

Providing a complete print management solution that leads from laptop to letterbox

Supporting democracy, 360 degrees

We understand that local authorities are strapped for time and under increasing pressure from demanding processes, legislative changes and even unexpected elections.

As a leading supplier of electoral services, Idox Elections provides a premium end-to-end portfolio that delivers across all areas of elections management. We do this by combining unrivalled flexibility, range and resource with an exceptional support service and in-depth understanding of customer needs.

For local authorities seeking an effective print solution that generates efficiencies and savings while helping to meet electoral responsibilities, then look no further...

End-to-end print fulfilment

Our print management solution forms part of our electoral portfolio to allow you to run your elections with complete confidence.

We have extensive experience delivering superior print solutions that comply with all electoral legislation, are approved by Royal Mail, and that manage the complexities of the print process so that you don't have to.

Our support spans the print spectrum, from consultation and design to project management, printing and mailing, ensuring we work as part of your team to provide a branded, premium service tailored to your satisfaction.

Our range of printable documents includes:

- » Election Registration Documents
- » HEF Canvass
- » ITR Canvass
- » Poll Cards & Poll Letters
- » Ordinary and Tendered Ballot Books
- » Postal Voting Packs
- » Oversized Ballot Papers
- » CNLs
- » Postal Vote Rejection Letters

Our print solution includes:

- » A dedicated Project Manager, ensuring a consultative approach to your needs
- » Production of all required materials such as poll cards, postal packs and ballot books
- » Intuitive web-based application which facilitates rapid and secure data exchange and processing in one, secure location
- » Data integrity checks, removing duplications and the risk of contamination between postal ballots and station ballots
- » Swift proofing, editing and approval online, ensuring full control at all times
- » On-site quality control team for accuracy and quality assurance

Our software offers:

- » **Security:** we adhere to leading industry standards for the encrypted transmission of data ensuring 128bit encryption during all file transfers
- » **'Clean' data:** designed and developed to recognise data inconsistencies from files received and uploaded to the system
- » **Visibility:** provides instant feedback for data uploads via a full automated report that details data content. All data files, reports and proofs are also stored during the election to provide easy access and reference
- » **Traceability:** all actions, completion dates and times and owners are stored for audit purposes. Users are also able to view the status of each order such as when it has been produced or dispatched
- » **Convenience:** user-friendly interface that permits all transactions and proofing to be carried out through a single online portal. Our proofing tool allows customers to view data immediately after upload and modify their final print item on-screen without re-keying data
- » **Efficiency:** automatically generates real-time email alerts each time an action is required, and at each key milestone in the printing process

Demonstrable experience – some examples from 2017:

» **Scottish Local Government Elections.** We supported all 32 Scottish local authorities to deliver:

» **Mayoral, County Council, Parish Elections.** We provided:
